

George Clark

Subject: A message from George's daughter Cindy

Hello everyone this is Cindy Clark, George's daughter. As some of you might already know, my father was diagnosed with metastatic cancer this past April 21st, 2008. The cancer had moved to his liver and was advancing rapidly. After a short attempt with chemo he passed away yesterday, June 7th at 8:28pm. His wife Kathy and family were able to be there with him in the hospital to see him off on his next journey. A very special gift indeed. He was loved dearly.

We are planning a memorial for sometime on the weekend of June 21-22, and will let you know more details in the next few days. I am hoping to put a booklet together of pictures and stories for everyone attending to take with them, so I am requesting that people send me favorite photos and stories to:

lifedancer28@yahoo.com.

Thanks so much.

I know my father was special to many people, so please pass on this e-mail to those I may have missed. Also, please feel free to e-mail me with any questions, etc.

Take Care- Cindy - - lifedancer28@yahoo.com
